

Study Title: Investigating Graphical Perception and Pseudocoloring in Multi-Channel Spatial Data
Researcher: Simon Warchol
Faculty Advisor: Hanspeter Pfister
Version Date: 1/19/2023

What is the purpose of this research?

We invite you to take part in a research study because you are an Adult in the US. In this study, you will complete tasks evaluating the use of color in spatial data visualizations .

What can I expect if I take part in this research?

- You will answer 20 questions about the values displayed in a spatial data visualization.
- This will take 10 min.
- All participation is remote and without direct interaction with any other individual.

What should I know about a research study?

- Whether or not you take part is up to you.
- Your participation is completely voluntary.
- You can choose not to take part.
- You can agree to take part and later change your mind.
- Your decision will not be held against you.
- Your refusal to participate will not result in any consequences or any loss of benefits that you are otherwise entitled to receive.
- You can ask all the questions you want before you decide.

Who can I talk to?

If you have questions, concerns, or complaints, or think the research has hurt you, talk to the research team at simonwarchol@g.harvard.edu
